

Strategic Water Partners Network

- The SWPN is a neutral platform for public, private and civil society engagement
- Established in 2011 by the Minister of Water and Environmental Affairs at the World Economic Forum (WEF),
- Mission: Address the 17% water gap between supply and demand projected to occur by 2030
- The vision is to strive to contribute to efficient, equitable and sustainable water supply and access to water for all South Africans through the **identification and application of innovative and cost effective solutions**

Challenges facing South Africa

- There is no alternative or substitute for water
- Lack of water is a risk to all elements of investment
- PPPs are a potential solution
- SWPN has demonstrated this benefit
- Initiatives
 - NRW Fund
 - Establishment of Mine Water Coordinating Body (MWCB)
 - Roll out of Water Administration System (WAS)
